Kathy,

I have reviewed the submitted traffic information for the Couls Cottage Housing Project (letter and attachments from Baseline Engineering, dated 5/19/16) and concur that the trip generation for average daily traffic, AM peak hour and PM peak hour are under the thresholds that would require a full Traffic Impact Analysis (TIA) for the Project.

Thanks,

Dom

Kathy – attached is a letter addressing potential traffic impacts for our proposed Couls Cottage Housing development.

If you have any questions please contact Terry Ferguson directly to discuss.

Thanks!

Camille Washington
