Non-Potable/Untreated	CCF	\$1.16

Summer rates will be reflected on bills covering June 1st through September 30th

C. Multiple Residential Units.

1. The water availability charge for a connection serving multiple residential units shall be the availability charge set forth above, multiplied by the number of dwelling units connected to the meter, as follows:

- Each duplex will be billed though separately connected to the water main, based on 3/4" meter rates.
- In the case of apartment/trailer courts having one meter, each unit will be billed as though separately connected to the water main, occupied or not, based on 3/4" meter rates.
- In the case of building lots which have been granted an use permit to allow more than one dwelling on one service meter; each dwelling unit will be billed as though separately connected to the water main, based on 3/4" meter rates.

2. There shall be only one water meter for each building housing multiple residential units.

D. Multiple Commercial and Industrial Buildings. Where all commercial or industrial buildings connected to a single service are used in the same business under single management, billing shall be made as for a single building.

E. Special Use Charge. Special purpose use of water from fire hydrants or stand pipes shall be \$50.00 plus \$2.33 per 100 cubic feet for all water used inside the city limits and \$60.00 plus \$2.79 for all water used outside the city limits.

D. Multiple Commercial and Industrial buildings. Where all commercial or industrial buildings connected to a single service are used in the same business under single management, billing shall be made as for a single building.

E. Special Use Charge. Special purpose use of water from fire hydrants or stand pipes shall be \$50.00 plus \$2.33 per 100 cubic feet for all water used inside the city limits and \$60.00 plus \$2.79 for all water used outside the city limits.

F. In the event a customer is not connected to a meter service, or a meter has broken, become out-of-order or fails to accurately meter actual water usage, the customer shall be charged the base or minimum charge, together with an estimated charge for the water used at the premises, based upon the average usage for the corresponding month of the preceding year, averaged over a three-month period including the preceding and following month. In the event there is no prior history for the preceding year, the charge shall be based upon the average water usage for the month for all customers of the municipal water supply system in the same service class.

14.04.150	Shut-off/Dispatch Fee	\$25.00/Water
	Payment of Fees	

All charges and/or fees for water service are due and payable at the office of the city administrator by the fifteenth of every month (due date). If payment is not received within five (5) days of the due date, the account shall become delinquent. On or about the first of every month a notice shall be sent to the customer noting the balance due, including any penalties and interest. After the city sends a notice of delinquency on the account, the customer must pay any delinquent amounts within 15 days or services may be disconnected. Any water service account that has been deemed delinquent shall be assessed a late penalty of 5 percent of the delinquent amount. The utility billing clerk shall, not later than the fifteenth day of each following month, furnish to the public works director a list of all meters in which water service accounts are delinquent.

BMC SECTION	DESCRIPTION	TAX, RATE OR FEE
	After water service accounts become delinquent, the public works director shall cause to be shut off the service to the premises affected by such delinquency, and the water service shall not be turned on again until all, or if less, at least four months of delinquent charges, interest and fees, including a fee established by resolution of the city council for the cost of issuing the shut-off notice and dispatching the city crew, is paid in full to the City Administrator's office.	
14.04.320	Water System - General Facility Charge	2022
	For each single-family residence	\$7,793.00
	For each multi-family and/or accessory dwelling	\$5,846.00
	For all other uses	\$7,793.00/each equivalent residential unit*
	*Each "equivalent residential unit" means 265 gallons per day; provided, that every use shall be assumed to be at least one equivalent residential use. Gallons per day for any use shall be established by reference to the city of Buckley sewer flow factors - BMC 14.10.016(2), Table 14.10.016. The general facility charges for the water system identified in this section will be automatically increased each year on January 1st, compared to the prior year, by the percentage reflected in the Seattle ENR Construction Cost Index (CCI).	
14.05.060	Standard Charges For Backflow Prevention Services Performed by the City shall be:
