

City Council
Study Session
July 3, 2018

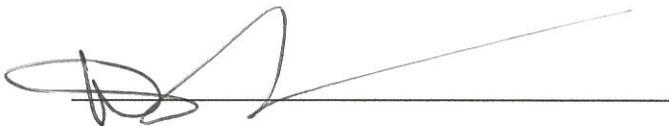

ATTENDEES: Council members L. Wilbanks, R. Smith, C. Bender, S. Burkett, B. Burkett and M. Tremblay. Also in attendance were Mayor Johnson and City Administrator Schmidt.

Mayor Pro Tem Tremblay brought the Study Session to order at 7 PM. City Administrator Schmidt distributed an informational packet of materials regarding the Rainier Gateway Design Opportunity, following which he briefed the Council on the history of this project, which started in 2003. City Administrator Schmidt then provided a recap of the current preliminary, conceptual design proposal.

Mayor Pro Tem Tremblay went around the table asking each Council member to share their thoughts on this proposed project design, what they would and would not like to see, pros and cons, and/or what revisions or changes they think would make it better.

A very lively discussion ensued with many strong opinions. After the discussion, most attendees felt that perhaps a survey might be a good idea to get the input of Buckley citizens.

Study Session adjourned at 8:35 PM.

City Administrator Dave Schmidt

Mayor Pat Johnson
